

## **Information Collection**

All data entered into NetWorth Advance is stored locally on your device. We wrote algorithms to secure your data that does not leave your device unless you choose to sync through iCloud. Please be aware that this means the responsibility for securing this data lies with you, the user, as it is stored on your device.

## **iCloud Sync (Optional)**

If you choose to back up your data using iCloud, please note that your data will be stored with Apple, not on our servers or any database controlled by NetWorth Advance. This option is entirely voluntary and is initiated only upon your explicit instruction. By selecting to back up your data on iCloud, you are agreeing to Apple's data storage practices and policies. We encourage you to review Apple's privacy policy to understand how your data will be handled by them.

## **Data Security**

At NetWorth Advance, we take the security of your data seriously. However, it is important to note that the majority of your data is stored locally on your device and not on any private servers controlled by us. Since your data is stored within your device, you play a crucial role in protecting that information. We recommend taking all necessary precautions to secure your device, including setting strong passwords, keeping your device's software up to date, and being cautious of any third-party applications you install. Please understand that the security and integrity of your data on the device is your responsibility. While we use algorithms to store your data securely on your device, ensuring that your device itself is secure is equally important. We do not store any of your data on our private servers unless you opt to sync your data with iCloud, in which case your data is stored with Apple and subject to their security measures and privacy policies. By using NetWorth Advance, you acknowledge and agree to take responsibility for safeguarding your data stored on your device.

## **Your Rights**

You have the right to access, modify, or delete your personal information stored by NetWorth Advance at any time. Since most

of your data is stored locally, you can manage your information directly through the app. If you have chosen to sync your data with iCloud, you may also manage your data through your iCloud account.

## **Changes to This Privacy Policy**

NetWorth Advance reserves the right to update or modify this Privacy Policy at any time to reflect changes in our practices, the services we offer, or legal or regulatory requirements. We will notify users of any significant changes by posting the updated Privacy Policy on our website and/or through the app. We encourage you to review this Privacy Policy periodically to stay informed about how we are protecting the personal information we collect. Your continued use of NetWorth Advance constitutes your agreement to this Privacy Policy and any updates.
